- Possesses the interpersonal skills to manage and direct a team.
- Developed productive working relationships with clients through effective communication and collaboration

PAUL WORTHINGTON

SOFTWARE DEVELOPER

TO WHOM IT MAY CONCERN,

As a software developer, I enjoy creating programs or applications from no more than a compiler. From automation to carefully considered experiments, I have built numerous programs including an application to improve French vocabulary, a full stack restaurant website with table booking and data storage, a calculator, a command line application measuring search times through lists and many more.

I have experience in multiple languages including HTML, CSS, Javascript, Python and SQL as well as Flask, Django, jQuery and Bootstrap frameworks. I use GitHub for version control and structure my development cycles using agile methodologies.

As well as being an avid software developer, I am a qualified teacher specialising in science with a Postgraduate Certificate in Education (PGCE). I am also a Loughborough University alumni with first-class honours in chemistry and, an international athlete captaining Wales lacrosse at the 2019 European championships, receiving six caps and the most valuable player award. Lastly, I am a qualified helicopter pilot with two types of ratings.

I pride myself on completing all tasks to the best of my ability, as demonstrated by attaining a first-class honours degree whilst also training as an international athlete. I believe my hard-working attitude and conscientiousness are emphasised by high high-achieving awards in previous educational courses, including qualifying as a private helicopter pilot.

I have developed numerous skills through my previous employments and understand the values of teamwork, effective communication and adaptability. I have proven capable of complex problem-solving and built my resilience by working under pressure. I therefore believe that I would be an asset to your development team.

SINCERELY,

A handwritten signature in black ink that reads "Paul Worthington". The script is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
